

Project «The establishment of Plastic automotive components production»

Products

- Dashboards
- Bumpers and body elements
- Elements of the cars interior
- Translucent automotive components

Consumers

- Automotive enterprises of the Republic of Belarus and the Eurasian Economic Union
- Service stations
- Wholesale trade chain and retail traders

Required investments

- More than 15 million dollars US, payback time – 4-5 years.

Project status

- Searching for investors

Investment benefits of the project:

- Volume of the plastic automotive components market in Russian Federation is about 1 billion US dollars.
- Assembly industry is highly developed in the Russian Federation. At the same time the production of the auto components is less-developed segment in Russian automotive industry.
- Market of the plastic automotive components of the Russian Federation grows at 20-30 % annually due to the process of localization the assembly of foreign vehicles.
- Despite the steady growth, Russian market of automotive components is not developed enough. This fact causes demand of automotive components and creates good conditions for export.

Additional information:

- Using of polymeric materials allows to decrease the weight of the auto on 15-30%, and fuel consumption on 0,5 liters per 100 km.
- Nearly three quarters of auto interior are made from plastic, synthetic materials and faux leather.

Advantages of projects implementation in Mogilev FEZ

MOGILEV
FREE | ECONOMIC | ZONE

Tax preferences

Profit tax

*Not paid during 10 years,
thereafter paid at halved rate*

Real estate tax

*Not paid on the objects within the
territory of Mogilev FEZ*

Customs preferences

*On raw materials and equipment
imported to the territory of Free
Custom Zone (FCZ defined for each
resident individually)*

*Outside the Customs Union
From Free Custom Zone to Free
Custom Zone*

*We do our job
to simplify yours!*
