

INVESTMENT PROJECT

«Organization of stamped steel and die-cast automotive rims production in “Mogilev” FEZ»

Project name «Organization of stamped steel and die-cast automotive rims production in “Mogilev” FEZ»

Production

- Stamped steel and die-cast automotive rims with diameter of 13-17 inches

Consumers

- The enterprises of automotive industry of the Republic of Belarus and countries of the Eurasian economic Union
- Car service stations
- Networks of wholesale and retail trade

Volume of investments

- Not less than \$ 25 mln. USD, payback period – 4-5 years

Status of the project

- Searching for investors

Investment attractiveness of the project:

- The total capacity of market of automotive rims in the territory of the EEU member countries in 2014 amounted to more than 25 million units
- Over the forecast period, the market capacity of forged steel rims for passenger cars will increase by 20%
- Dynamical development of domestic automotive industry (FLLC “BelGee“, CJSC «Unison»)
- Despite continuing growth, the Russian market of automotive batteries is underdeveloped, which determines the demand for products and creates favorable conditions for its exports.
